1)

This is something you see  
When outside there's a storm  
It comes down from the clouds  
And appears in droplet form

2)

If you see this striking Earth  
A tree you don't want to be under  
It's something that lights the sky  
And is closely followed by thunder

3)

Dropping from the sky  
More beautiful than rain  
There are no two pieces  
That'll ever look the same

4)

If you look up during the day  
Then you will see this lit  
Because it is Earth's closest star  
Around which we orbit

5)

This natural phenomenon  
Cannot be seen when it is dark  
For it's caused by light hitting rain  
To create a colorful arc

6)

I'm a breeze or a squall  
A cyclone or gale  
I am what is measured  
On the Beaufort scale

7)

I happen after a flash  
But I'm not a photograph  
You hear me in a bad storm  
I am lightning's other half

8)

I can come in three forms  
But this is my solid state  
And when I'm hard enough  
On me you're able to skate

9)

This is something you see in the sky  
You'll need more hints though so I'll explain  
It's sometimes fluffy and sometimes gray  
And can release snow, hail or rain

10)

This is a type of weather  
A phenomenon that was  
What caused the house to lift up  
In the film Wizard Of Oz
